

## Causes of Air Pollution - Survey

Pupil Name: \_\_\_\_\_ Location: \_\_\_\_\_ Date: \_\_\_\_\_ Time: \_\_\_\_\_

This activity lasts 20 minutes. One pupil will use the camera and one will record observations. After 10 minutes pupils will swap roles. The camera should be used to take a picture of any sources of air pollution that you discover as you survey your school grounds or local area. You should visit 5 different locations. The survey sheet should be used to note down any sources you discover. You can mention any source of pollution e.g. factories more than once.
